09-Jan to 15-Jan

## Outbreaks and Clusters

This represents the number of outbreaks and clusters currently being managed. Outbreaks are any situation with two or more cases, where at least two cases are known to be related to each other. Clusters are any incidents being managed at the same setting with two or more cases but where there is no established link between any of the cases.

# Somerset COVID-19 Local Outbreak Management Plan Dashboard - Cases Map

Number of cases in the local area in the past fortnight

**Date range 09-Jan to 15-Jan**

The numbers in this map show the current cases in the past 7 days, the colour of the tag shows the equivalent rate of positive cases per 100,000 population over a 7 day period. Case numbers in Taunton, Wellington, Chard, Yeovil, Bridgwater and Frome have been combined across the urban area with rates based on the combined area population.

**Weekly rate per 100k**

# Somerset COVID-19 Local Outbreak Management Plan Dashboard - Wider Context

## Latest R number range for the South West

# 1.2 to 1.4

Last updated on Friday 14 Jan 2022

Produced by:

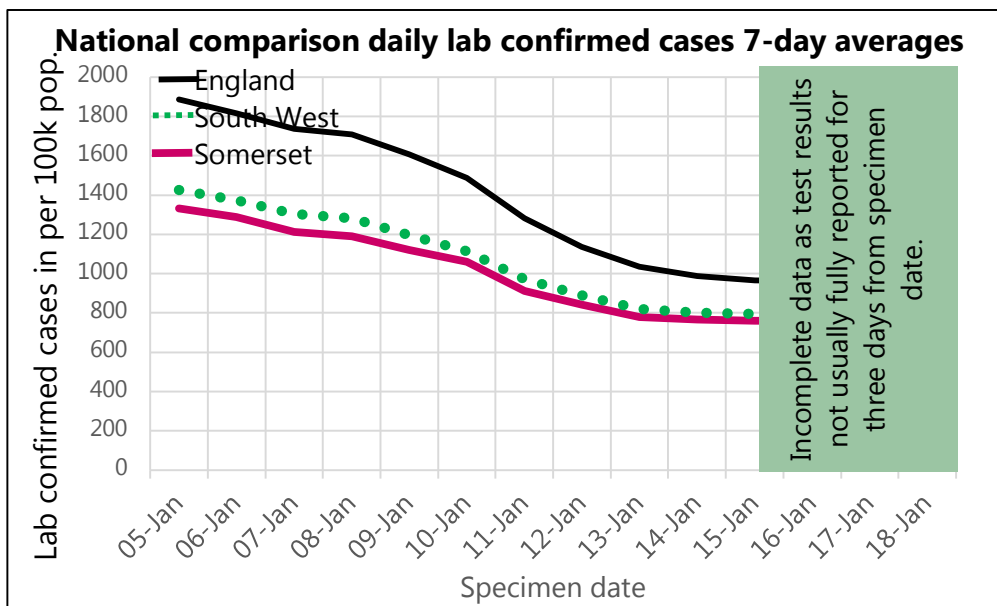

UK Government Scientific Advisory Group for Emergencies (SAGE)

## What is R?

The reproduction number (R) is the average number of secondary infections produced by 1 infected person.

An R number of 1 means that on average every person who is infected will infect 1 other person, meaning the total number of new infections is stable.

Region	R
UK	No longer produced
England	1.1 to 1.5
East of England	1.0 to 1.4
London	0.7 to 1.1
Midlands	1.2 to 1.5
NE and Yorks	1.4 to 1.7
North West	1.2 to 1.6
South East	1.0 to 1.3
South West	1.2 to 1.4

Data type	Next updated	How published	Link for more information
Lab confirmed cases: Pillars 1 & 2	19/01/2022	Published daily ~5pm with data to day before. By specimen date.	<a href="https://coronavirus.data.gov.uk/">https://coronavirus.data.gov.uk/</a>
Data by MSOA for the map	19/01/2022	Published daily. By specimen date.	None. Not publicly distributed. Data based on PHE reported cases. To note, this may differ slightly from data on the coronavirus.data.gov.uk website due to additional data cleaning by PHE.
R value from SAGE group	28/01/2022	Published weekly on Friday.	<a href="https://www.gov.uk/guidance/the-r-number-in-the-uk">https://www.gov.uk/guidance/the-r-number-in-the-uk</a>
Pillar 2 testing	19/01/2022	Published daily	<a href="https://coronavirus.data.gov.uk/">https://coronavirus.data.gov.uk/</a>
Death counts (ONS) County and district level	18/01/2022	Published weekly on Tuesday with data to the Friday 11 days before.	<a href="https://www.ons.gov.uk/peoplepopulationandcommunity/healthandsocialcare/causesofdeath/datasets/deathregistrationsandoccurrencesbylocalauthorityandhealthboard">https://www.ons.gov.uk/peoplepopulationandcommunity/healthandsocialcare/causesofdeath/datasets/deathregistrationsandoccurrencesbylocalauthorityandhealthboard</a>
Vaccination data	27/01/2022	Published weekly on Thursday with data to Sunday before.	<a href="https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/">https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/</a>
Hospital Activity	27/01/2022	Published weekly on Thursday with data to Tuesday before.	<a href="https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-hospital-activity/">https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-hospital-activity/</a>

As of 2nd June 2020, numbers of lab-confirmed positive cases now include those identified by testing in all settings (pillars 1 and 2).

In January 2021, we changed the presentation of deaths data to be shown compared to the average and five year high and low deaths by date of occurrence rather than date of reporting. Deaths by date of reporting fluctuates more, especially when affected by bank holidays. Reporting by date of death does mean the latest week's figures are usually slightly incomplete when first reported due to delays in registrations of some deaths whereas the comparison years are more complete. For week 53 we have taken an average of 52 and week 1 comparison years.
